

**16th ISANH Middle East
World Congress on**

Antioxidants

April 12-14, 2016

**Marriott Hotel
Al Jaddaf, Dubai**

3-Days Program

**Antioxidants & Oxidative Stress in
health and medicine**

**Functional ingredients in
food & beverage industry**

**Dietary Supplements in Middle East:
The role of local institutions**

www.isanh-me.com

WELCOME NOTE

On behalf of ISANH Scientific Committee, it is a great pleasure to announce the organization of **ISANH Middle East Antioxidants World Congress** which will be held in **Dubai, UAE**, from **April 12 to April 14, 2016**.

The aim of this international congress is to gather all stakeholders in antioxidants field and their impact on nutrition and health. Participants will majority come from Europe, Asia & Middle East to discuss about some strategic axes during ISANH Middle East 2016.

This congress will be divided in three parts dedicated to different targets:

- Day 1 will be dedicated to **Antioxidants & Oxidative Stress in health and medicine**
- Day 2 will be dedicated to **Antioxidants & functional ingredients used in food & beverage industry**
- Day 3 is dedicated to **Dietary Supplements in Middle East**

Day 1 – Antioxidants and Oxidative Stress in Health & Medicine

On first day, the scientific committee will allocate time to discuss about oxidative stress and chronic diseases. We will present the recent advances and discuss how to decrease and modulate oxidative stress related diseases such as diabetes, obesity, cancer, neurodegenerative diseases, infertility...

Clinical studies will be selected to present the subtle effects of antioxidants on health.

Antioxidants & Medical Food: Toward the personalization of medicine

During this session, the scientific committee will present the antioxidants in medical food for diabetes & obesity, cancer, ageing, neurodegenerative diseases and also specific medical food for babies and seniors.

Special Session on Antioxidants & Biomarkers

A practical session is dedicated to Middle East clinical laboratories and clinicians to familiarize them with antioxidants biomarkers.

Day 2 – Antioxidants & Functional ingredients in food and beverage

We cannot talk about beneficial effects of antioxidants without presenting how to formulate and use natural antioxidants.

During this session, we will answer the following questions:

- How to use antioxidants to prevent food & beverage oxidation?
- How to use antioxidants as antimicrobial, natural conservators, antibacterial actor?
- How to decrease glycation and Maillard Reaction?
- How to decrease acrylamide formation?

A debate will be organized on the strategic theme: Natural vs synthetic antioxidants: bioavailability, toxicity and impact on gut microbiota.

A special workshop is dedicated to the valorization of natural sources of antioxidants and functional ingredients in the Middle East.

Day 3 – Dietary Supplements in the Middle East

Many antioxidants are used in many dietary supplements formulations to prevent diseases. The aim of session is to discuss about the recent advances, clinical studies, regulation and marketing of antioxidants in dietary supplements.

The status and regulation of dietary supplements in Europe is completely different than in Middle East.

A round table discussion will be organized to discuss **and how to harmonize the European and Middle East regulation?**

Moreover, we will discuss **the role of local institutions** to setup a guideline to give credibility to the market of food and dietary supplements.

With this exciting program, we wish to meet you in Dubai next April.

Marvin Edeas - Chairman of ISANH, France

Chairman of Scientific Committee

Richard Maroun – Dean of Faculty of Sciences, Saint Joseph University, Lebanon

Jumana Saleh - College of Medicine of Sultan Qaboos University, Oman

Carine Platat - Nutrition & Health Department, College of Food & Agriculture, UAE University, UAE

Local Organizing Committee

TRACKS FOR ABSTRACTS SUBMISSION

All the abstracts can be submitted for **short oral** or **poster presentation** among the tracks indicated below.

The abstract category is the general heading under which an abstract is submitted and reviewed.

If accepted, the abstract will be published under this heading in the Convention & Congress Program.

Track 1: Antioxidants, Natural & Functional Ingredients to Prevent / Treat Health & Diseases

- 1.1 Antioxidants, Natural & Functional Ingredients & Cardiovascular Diseases
- 1.2 Antioxidants, Natural & Functional Ingredients & Neurodegenerative Diseases
- 1.3 Antioxidants, Natural & Functional Ingredients & Cancer
- 1.4 Antioxidants, Natural & Functional Ingredients & Liver
- 1.5 Antioxidants, Natural & Functional Ingredients & Kidney
- 1.6 Antioxidants, Natural & Functional Ingredients & Metabolic Syndrome, Diabetes & Obesity
- 1.7 Antioxidants, Natural & Functional Ingredients & Muscles
- 1.8 Antioxidants, Natural & Functional Ingredients & Brain
- 1.9 Antioxidants, Natural & Functional Ingredients & Infection
- 1.10 Antioxidants, Natural & Functional Ingredients & Fertility
- 1.11 Others

Track 2: Recent advances in methods, devices and materials to evaluate Antioxidants

- 2.1 In vitro / in vivo methods
- 2.2 Evaluation of antioxidants in human plasma
- 2.3 Evaluation of oxidative stress in human plasma

Track 3: Antioxidants, Natural & Functional Ingredients in Food & Beverage

- 3.1 Antibacterial, antiviral and antifungal effects of Antioxidants, Natural & Functional Ingredients
- 3.2 How to switch from synthetic to more natural conservators?
- 3.3 Antioxidants, Natural & Functional Ingredients Applications in Packaging
- 3.4 Antioxidants, Natural & Functional Ingredients & food colorants: the force of natural products
- 3.5 Antioxidants as Medical Food

Track 4: Functional Antioxidants & Natural Ingredients Valorization in the Middle East

- 4.1 Local antioxidant sources and their potential health effects
 - 4.1.1 Dates
 - 4.1.2 Olive
 - 4.1.3 Arabic Gum
 - 4.1.4 Herbs
 - 4.1.5 Pomegranate
 - 4.1.6 Grape / Wine
 - 4.1.7 Others
- 4.2 Antioxidants extraction / characterization
- 4.3 Natural biowaste & by-products

Track 5: Dietary Supplements in the Middle East

- 5.1 Local antioxidant sources and their potential health effects
- 5.2 Dietary Supplements, Antioxidants & Physical Performance
- 5.3 Antioxidants & Metabolism to boost gut microbiota
- 5.4 Dietary Supplement & Fertility: Impact of Antioxidants Formulation

Track 6: Oxidative Stress & Antioxidants in Horses & Camels

- 6.1 Oxidative Stress evaluation in animal's farm
- 6.2 Oxidative Stress & Inflammation
- 6.3 Can we use antioxidants in horses and camels?

Track 7: Others

Any other subject related to the antioxidants not available on this list.

AMONG SPEAKERS & MEMBERS OF THE COMMITTEE

Martin Bergo

Marvin Edeas

ISANH Middle East World Congress

Health & Medicine - Food & Beverage - Dietary Supplements

April 12-14, 2016 - Dubai, United Arab Emirates

Day 1 - April 12, 2016

7h30 Welcoming & Registration of Attendees

8h25 Welcome introduction by ISANH Middle East Chairpersons & local organizing committee

Session 1: Oxidative Stress & Antioxidants in Health & Medicine

*Chaired by Pr Marvin Edeas, Pr Salah Gariballa,
Pr Raj Lakshman & Dr Jumana Saleh*

8h30 **ISANH Middle East 2016: Quality of our food, quality of our environment and quality of our regulatory: what and who is to blame?**

Marvin Edeas, Chairman of ISANH, Paris, France

9h00 **Effect of increased fruits and vegetables consumption on visceral obesity and associated oxidative damage and inflammation: data from the UAE**

Salah Gariballa, College of Medicine & Health Sciences, United Arab Emirates University, Al-Ain, UAE

9h30 **Oxidative stress & liver: Modulators of oxidative stress in alcoholic liver injury and regeneration**

Raj Lakshman, George Washington University, Washington DC, USA

10h00 **Mechanisms of the respiratory and cardiovascular effects of water-pipe (Shisha) smoking: role of oxidative stress and inflammation, and the potential mitigating effect of antioxidant**

Abderrahim Nemmar, College of Medicine and Health Sciences, United Arab Emirates University, Al-Ain, UAE

10h30 Coffee Break & Posters Session

11h00 **Fertility & oxidative stress: Pre-clinical evidences that antioxidant supplementation corrects sperm DNA oxidative damage and improves reproductive success**

Joël Drevet, INSERM U1103-Clermont University, Clermont-Ferrand, France

11h30 Role of antioxidants and oxidative damage in pathophysiology of cancer

Thomas E Adrian, College of Medicine and Health Sciences, United Arab Emirates University, Al-Ain, UAE

12h00 On the role of ROS and antioxidants in tumor initiation and progression

Martin Bergö, Karolinska Institute, Solnavagen, Sweden

12h30 Lunch Break & Posters Session

13h30 Oxidative stress in diabetes-induced cancer: master players in a new complication

Assaad Antoine Eid, Faculty of Medicine, American University, Beirut, Lebanon

14h00 Oxidative stress, myocardial infarction and heart failure

Suhail Al Salam, College of Medicine and Health Sciences, United Arab Emirates University, Al-Ain, UAE

14h30 Protective effect of antioxidants consumption on diabetes, hepatic and vascular complications: alliance between chemistry and biology

Stéphanie Dal, Centre Européen d'Etude du Diabète (CEED), Strasbourg, France

15h00 Coffee Break & Posters Session

15h30 Short oral presentations upon abstracts submission

Among the selected presentations:

L-tug Lycopene - Antioxidant and More

Stoffer Loman, NutriClaim BV, the Netherlands

Resveratrol and diabetic foot syndrome

Ivan Petyaev, Lycotec Ltd, Cambridge UK, United Kingdom

Alteration of Dynamic Thiol Disulphide Hemostatis in Both Maternal Circulation and Umbilical Cord Blood and its Relation to Mode of Delivery

Melahat Yildirim, Yildirim Beyazit University School of Medicine, Turkey

Preclinical and clinical effects of co-ultramicrosized PEA-LUT® treatment on autism spectrum disorder

Salvatore Cuzzocrea, University of Messina, Italy

Co-ultra PEALut enhances neuronal recovery after a moderate traumatic brain injury

Irene Paterniti, University of Messina, Italy

Vitamin A intake through local food recipes: can be a solution to improve immunity system in Mozambique?

Damiano Pizzol, Doctors with Africa, Mozambique

Protective Effects of Punicagin on Caco-2 Intestine Cell Line under Oxidative Stress Caused by Tert-butyl hydroperoxide

Ulfat Mohammed Omar, King Abdulaziz University, Saudi Arabia

Anti-Inflammatory, antioxidant and anti-genotoxic effects of different doses of bee venom on adjuvant induce arthritis in rats

Abdurrahim Kocyigit, Bezmialem Vakif University, Turkey

Medicinal Herbs: Effects on In vivo Antioxidant Markers and Clinical Laboratory Results

Yousif Yahia Bilito, The University of Jordan, Jordan

Effect of Vitamin D on Inflammatory and Oxidative Stress Biomarkers, Gastrointestinal Symptoms and Health Related Quality of Life in Irritable Bowel Syndrome Patients

Amir Abbasnezhad, Ahvaz Jundishapur University of Medical Sciences, Iran

Characterization of Antioxidant rich Cordyceps sinensis fractions by Semi- Preparative HPLC

Rakhee Rajput, University of Delhi, India

Antioxidant and Pro-Oxidant Activities of dietary ginger (Zingiber officinales Rosc)

Sevana Daneghian, Ahvaz Jundishapour University of Medical Sciences, Iran

18h45 End of First Day

Day 2 - April 13, 2016

8h25 Opening of the second day

Chaired by Pr Martin Bergö & Pr Richard Maroun

8h30 **New insight on metabolic markers linked to oxidative stress and the metabolic syndrome**
Jumana Saleh, College of Medicine & Health Sciences, Sultan Qaboos University, Muscat, Oman

9h00 **Ameliorative effects of gum acacia in rat models of chronic kidney disease In rats**
Ali Badreldin, College of Medicine & Health Sciences, Sultan Qaboos University, Muscat, Oman

9h30 **Novel effect of Gum Arabic (Acacia Senegal) Past, Present and Future**
Omaima Dahab Nasir, Taif University, Saudia Arabia

Session 2: Antioxidants & Functional Ingredients in Food & Beverage

Chaired by Pr Martin Bergö & Pr Richard Maroun

9h40 **State of the art technology for antioxidants extraction from food byproducts in the Middle-East**
Richard Maroun, Dean of the Faculty of Sciences, Saint Joseph University, Beirut, Lebanon

10h10 **Innovative technologies for antioxidants extraction from food and food byproducts**
Nicolas Louka, Saint Joseph University, Beirut, Lebanon

10h40 Coffee Break & Posters Session

11h10 **Wine shoots green valorization: phenolic compounds extraction using green solvents**
Zeina Hobaika, Saint Joseph University, Beirut, Lebanon

11h40 **Short oral presentations**

Extraction technology and composition of natural balanced antioxidant from conifers of Pinus Sylvestris and Picea Abies, which possess unique therapeutic properties

Vagif Soutanov, Executive Chairman, Solagran Limited, Australia

Polyphenols, reducing sugars and soluble lignin extraction from vine shoots by High Voltage Electrical Discharges, enzymatic and alkaline hydrolyses

Hiba N. Rajha, Saint Joseph University (USJ), Lebanon

Polyphenols Bioaccessibility And Antioxidant Activity In Yogurt Enriched With Cocoa Bean Shell
Letricia Barbosa-Pereira, University of Turin, Italy

Antioxidants of Pomegranate Peel Extract against oxidative stress by Rotenone in cell lines

Amani Salim Al-Rawahi, Sultan Taboos University, Oman

Sumac fruit extracts exhibit antioxidant properties on human myoblast and zebrafish embryos

Aline Hamade, Lebanese University, Lebanon

Saffron extract exhibit antioxidant protective effect on human myoblast and zebrafish embryos

Fadia Najjar, Lebanese University, Lebanon

12h30 Lunch Break & Posters Session

Session 3: Horses, Camels & Oxidative Stress: Strategic Role of Antioxidants

Chaired by Pr Didier Serteyn

13h30 Oxidative stress and performance in horses – Perspectives for camels

Didier Serteyn, Center for Oxygen, Research and Development, Liège, Belgium

14h00 Diagnostic and prognostic importance of oxidative stress biomarkers in camels

Wael El-Deeb, College of Veterinary Medicine and Animal Resources, King Faisal University, Al Hofuf, Saudi Arabia

14h30 Supplementation of selenium in its different forms and the fertilization of soil with selenium on dairy cow performance

Rabiha Seboussi, Higher Colleges of Technology, Health Sciences, Veterinary Faculty, Al-Ain, UAE

15h00 Short oral presentations

Soluble Curcumin and Horses: Strategic ingredient in the future

Didier Serteyn, Center for Oxygen, Research and Development, Liège, Belgium

Evaluation of Bioeffectives (Conifer Green Needle Complex) in horses with equine gastric ulcer syndrome and (Isoprenols) in breeding stallions

Kamran Shamsi, Regional Director, Solagran Limited, Australia

The Effects of Consuming a Polyphenol Rich Açai based Meal on Vascular Function

Randah Alqurashi, University of Reading, United Kingdom

Biochemical and Histological Effects of Thiamine Pyrophosphate against Acetaminophen-Induced Hepatotoxicity

Hilal Bektas Uysal, Adnan Menderes University, Turkey

Pomegranate Antioxidants and Brain Health

Ghazi Ahmad Daradkeh, Hamad Medical Corporation, Qatar

Caper (Capparis Ovata) Water Extract as an Efficient Preparation for Treatment of Multiple Sclerosis

Alaattin Sen, Pamukkale University, Turkey

16h00 End of Second Day

20h00 Dinner between speakers & attendees

The venue will be announced soon. You can participate to this dinner by registering on line.

8h25 Opening of the third day

Session 4: Dietary and Food Supplements in the Middle East

Chaired by Pr Marvin Edeas & Dr Stoffer Loman

8h30 Introduction by Chairman of ISANH: Dietary supplements uses in the Middle East: Urgent Problem & Strategies

To introduce the dietary supplements in Middle East, the chairman will highlight the following hot topics:

- Food & dietary supplements in the Middle East: state of the art, market and perspectives
- Food & dietary supplements uses in the Middle East: can we talk about regulation and credibility?
- What is the role of local institutions to setup a guideline to give credibility to the market of food and dietary supplements?

9h00 Dietary and Food Supplements Europe 2016 - All you need to know from A to Z

Stoffer Loman, NutriClaim, The Netherlands

- The EU system of Food Regulation - Food supplements
- The latest Food Regulations imposed by the EC
 - General Food Law
 - Food Supplements
 - Vitamins and minerals that may be added to foods
 - Vitamin formulations and mineral substances that may be added to foods
- Safety
 - Limits to microbiological, heavy metal and chemical contamination
 - Certified lab
- Labeling : Mandatory requirements
- Novel Food
- Claims : Authorized health claims / Claims related to a general, non-specific well-being
- The EU Food Supplement Market:
 - Impact of EFSA safety evaluations
 - Impact of EC decisions?
- ❖ The EU Food Supplement Market: Impact of regulation and authorization
 - What is the impact of EFSA/EC strategy on the credibility of food supplements? Safety first!
 - Impact on consumers? Health benefit first!

9h30 Dietary and Food Supplements Middle East 2016 - All you need to know from A to Z

Stoffer Loman, NutriClaim, The Netherlands

- Issues with harmonization between the Member States
- Are Food Supplements defined as « Food » in the Middle East?
- Food supplements - claim driven market
- Scientific credibility and Clinical Studies

- Template regulations (e.g. Saudi Arabia?)
- Where are we now ?

Why ISANH Food Supplements Platform?

We offer up-to-date Scientific and Regulatory support of Food Supplement businesses importing and exporting Food Supplements

(Middle East  Europe)

Launching your brand of Food Supplements in the EU and Middle East?

- 1/ The credibility of ingredients
- 2/ Novelty of ingredients
- 3/ Toxicity Primary concern in the EU. Food Safety is paramount.
- 4/ Clinical studies. Target population! Ethnicity, scientific rigor, methodology
- 5/ Claims in other countries
- 6/ Decision

Food Supplies 2016: Practical Cases

We will present a few practical examples of Food Supplements in the market such as Food Supplements for Sliming, Aging, Men Sexual Formula, Brain health and function... and the scientific substantiation of the corresponding claims. The gap between the claims and the scientific and clinical evidence will be highlighted.

10h00 The Effect of Ginger Powder on Blood Glycaemia, Blood Lipidemia and Body Composition on Adults at Risk for Cardiovascular Diseases: A controlled, randomized, single blind, parallel-design study

Ayesha Salem Al Dhaheri, University of United Arab Emirates, Al Ain, UAE

10h30 Coffee break

11h00 Food supplements, natural antioxidants and brain function

Mohamed Essa, Food Science and Nutrition College of Agricultural and Marine Sciences, Sultan Qaboos University, Muscat, Oman

11h30 Targeting Colorectal Cancer with Dietary Antioxidants

Mostafa Waly, Sultan Qaboos University, Muscat, Oman

12h00 Vitamin D deficiency disorders assessment among healthy pregnant women in United Arab Emirates

Latifa Rashid, Head of Nutrition Section Department, Ministry of Health, Al Ain, UAE

12h30 Discussion: Dietary Supplements in 2016: Recommendations

What is the future of health ingredients supplementations in the Middle East?

ISANH Middle East 2016 Awards:

- *Scientific Contribution Award 2016*
- *Young Scientific Contribution for Oral and Poster Contribution*

Conclusion of ISANH Middle East World Congress 2016

In the presence of Organizers & Speakers from scientific committee

13h00 Lunch Break & End of ISANH Middle East World Congress
